Work Experience

Business Owner | Talabanji Delivery – Amman, Jordan | Sep 2020 – Jul 2023

- Managed daily operations including scheduling, workflow oversight, and quality control.
- Coordinated with customers, suppliers, and vendors to ensure timely deliveries.
- Supervised staff and implemented process improvements to boost efficiency.

Operations Manager | Wadi Al Ghadaf Factory – Amman, Jordan | Jun 2018 – Jul 2023

- Oversaw order coordination and customer service operations for accurate, timely deliveries.
- Maintained and supported basic office IT setup (PCs and mobile devices) to keep operations running smoothly.

Driver & Process Support | Laundry ToGo – Toronto, Canada | May 2024 – Dec 2024

- Monitored order status and coordinated with the laundry facility for timely processing.
- Used internal tracking tools to update order progress and report issues to management.

Oracle Developer Intern | Civil Service Bureau – Amman, Jordan | Aug 2017 – Dec 2017

- Assisted with Oracle Forms and PL/SQL development tasks.
- Supported system users, performed testing, and prepared technical documentation.

PROJECTS

Study Permit Data Analysis (Python, Pandas, Plotly)

- Analyzed Canadian study permit data (2015–2025) to identify trends and visualize insights through interactive charts.

Pong Game – Player vs Computer (Python, Pygame)

- Built a functional game with adjustable AI difficulty, reinforcing problem-solving, testing, and iterative development.

Education

Diploma in Software Engineering Technician – Centennial College, Toronto, ON | Sep 2023 – Dec 2024

- Completed full-stack development projects using JavaScript, React, Python, and database systems (SQL, MongoDB)
- Developed team-based applications using Git version control, agile methodologies, and test-driven development

Bachelor’s Degree in Computer Science – Al-Balqa’ Applied University, Salt, Jordan | Sep 2014 – Jun 2018
